

COOL OR SHADY PROTECTION
 And the corner but!
 Come up with a comparison
 and design!
 → There are four basic techniques
 of architectural protection
 and they are something that
 you can use for your building
 → They are: 1. Overhang
 2. Canopy
 3. Slat
 4. Screen
 → They are all different
 and they have different
 effects on the building
 → They are all different
 and they have different
 effects on the building

making the form that makes
 a space to life with the way
 people live
 → It is about not making a
 neighborhood!
 → It is about making a
 neighborhood!
 → It is about making a
 neighborhood!
 → It is about making a
 neighborhood!

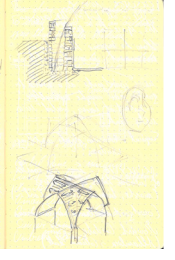

Made METHOD
 One night or two for ideas
 → All ideas require a specific
 condition!
 → They are: 1. 1.5h
 2. 1.5h
 3. 1.5h
 4. 1.5h
 → They are all different
 and they have different
 effects on the building

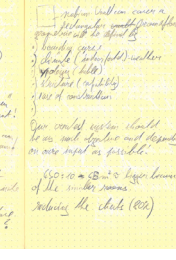

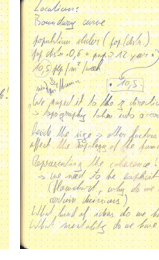

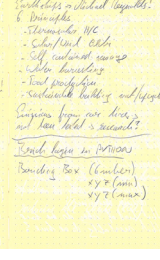

Condition: 1. 1.5h
